

Our Mission:

Northwestern Health Sciences University prepares the next generation of healthcare professionals to deliver and advance healthcare.

NWHSU Overview:

Founded in 1941, NWHSU is a progressive institution educating the next generation of health care professionals. While the institution's history is rooted in the chiropractic profession, NWHSU now focuses more broadly on integrative care, health, and wellness. In addition to our Doctor of Chiropractic, we offer a Doctor in Chinese Medicine, and offerings in massage therapy, nutrition, undergraduate health sciences, and the allied health professions - medical assisting, medical laboratory science, medical laboratory technology, radiation therapy, and radiologic technology. We are a mission- and vision-driven university, preparing the next generation of healthcare professionals to not only deliver, but advance health care.

Position Information:

The Clinical Coordinator will be responsible for teaching didactic courses, clinical courses, coordination and supervision of clinical supervisors and final evaluation and progression decisions for students in collaboration with clinical supervisors and program chair. In addition, this position will seek out new clinical partnerships and conduct site visits. This is a full-time faculty position within the College of Health and Wellness, Radiologic Technology Program. This position will consist of 80% classroom teaching and 20% administration. This is a 12-month, faculty position where academic rank and compensation will be determined by qualifications and experience.
